

As a non-profit organization, the St. Christopher Truckers Relief Fund is able to help professional drivers in need by operating from the donations of corporations & drivers, fundraisers and volunteers. Located in Knoxville, TN. aka, The Volunteer State, we assist drivers all across the United States.

Recently, several local individuals and one business has volunteered hundreds of hours helping us become more efficient in the office, giving us a dynamic website and providing backend IT assistance. We would like to take this opportunity to recognize them and publicly thank each of them for their hard work.

Brent Homer, a recent Knoxville transplant, was our first local volunteer He helped us set up our initial website and gave us the tools to be able to manage the "easy" stuff on the site. Many thanks to Brent for his hours of work to help get us on the right track. He can be found [here](#). As our organization continued to grow and we needed additional web design and IT assistance, a few individuals reached out to offer their professional services.

Jason Bowers, owner of Pixelized Designs, has helped the SCF achieve the professional website design that we been working to attain. Jason and his team have done a complete website redesign, assisted with graphic design and helped us with our Search Engine Optimization. We are so fortunate to have him as part of our volunteer team. You can find out more information about Pixelized Designs [here](#).

Jordan Helton has been a great asset us with his technical skills. The SCF obtained a grant through Microsoft that offers Azure Cloud Services. This allows us to have a cloud based network and gives us the ability to have secure, encrypted remote access and be able to file-share. Jordan has implemented the new network for us and is continuing to offer his expertise. As an Azure Solutions Engineer, Jordan has over a decade of experience in the IT industry. His current focus is cloud enablement.

One individual, who chooses to remain anonymous, has volunteered over 300 hours to create a new central applicant database. We now have the capability to have all applicant information in one location and run reports from the information entered. While this sounds like such a simple task, it was a huge undertaking and we are extremely grateful for this person's hard work.

Our last local volunteer is Dr. John McElligott, our medical director. Not only is he one of the founders of St. Christopher Fund, he has volunteered countless hours to benefit drivers in need. Dr. John's expertise and dedication to drivers is to be commended. He is a valuable member of our group.

Our board of directors is comprised of professionals within the trucking industry. While they don't live in the Knoxville area, they definitely have the 'volunteer spirit'. They volunteer their time and energy throughout the year as a board member. Many thanks to Tom Liutkus, Joyce Brenny, Tom Heinz, Rick Ash, Buck Black, Dave Waterman, Tim Ridley, Sandi Soendker, and Eric Harley for their support of SCF.

We are so appreciative of the hard work and dedication of these 'true volunteers'. Donna Kennedy, Executive Director of the SCF says, "Countless hours put in by these individuals have propelled us to the next level of professionalism and efficiency in the office. They are invaluable resource for our agency." Thank you again to all of our volunteers. You are truly helping us to Save Lives and Families, One Driver at a Time!
