RIGS WITHOUT CIGS

HEAR FROM DRIVERS LIKE YOU

“There is no magic pill. Julie recommended a book—I listened to it and something finally clicked and I decided to smoke my last cigarette and I did it. I quit cold turkey..... You have to reach deep within yourself how long you want to live or die.. remember though if you try the gum or the patch it still contains nicotine and the urge never goes away it’s like giving a heroin addict ... My other fear was having a beer with the steak dinner and wanting the after dinner smoke. I have made it through three of those steak dinners.”

“I really do believe that the accountability the program installed is the key to my success.”

“Rigs without cigs has been awesome for me. With the constant contact it has helped me stay on track. I think the program works wonders with access to a Facebook group and the keeping in touch, you’re able to stay focused and obtain support when needed thank you very much for your help and assistance.”
